◆◆◆ Sizing Guide ◆◆◆

Place both feet next to one another and measure the biggest foot.

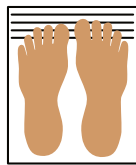

Refer to the size chart and compare your foot length to the chart. Measure from heel to toe.

Please keep in mind that leather stretches. The measurements in the chart indicate the shoe's inner length, same as the last used to manufacture your shoe. If you don't want to measure your feet, we recommend choosing a size or a half size smaller, as our sizes run big and leather stretches over time.

Please note there are different size charts for Women's, Men's, Kids and Belt sizes.

01. GET A RULER

02. MEASURE BOTH FEET
ON THE RULER

03. PICK THE LONGEST
FOOT

04. CHOOSE YOUR SIZE
